SOME OF THE SUPERIOR POINTS IN AN AEROPLANE BUNGALOW

Sleeping quarters open on all sides so that you are never lacking a cool breeze.
You are sleeping at least ten to twelve feet above the ground so that you feel more secure than on the ordinary sleeping porch.

The stairway opening up from the first floor to the center of the house creates a suction which draws out all the hot air, making the entire house much cooler.

We will be pleased to show you some we have built and prove the above statements.

EL PASO BUILDING BOOM CONTINUES; MANY HOMES AND APARTMENTS GOING UP.

A \$40,000 dwelling house and a \$15,000 apartment house have been projected during the past week. This furnishes further proof that El Paso's boom is of lasting variety. The average hard-headed American business man does not sink \$40,000 in a city whose prosperity is built on a foundation of sand. The forward looking man realizes that with the gradual settlement of the border situation, nothing but an act of God can stem El Paso's phenomenal growth.

BUILT BY MAYFIELD BUILDING AND IMPROVEMENT COMPANY IN KERN PLACE

This Is a Day Of Specialists

A few years ago your family physician treated "What Ails You" whether it was your ear, eye, nose, throat or stomach. Now however different men specialize and thoroughly master special diseases.

We Specialize In Home Building

All Sterling Homes are well balanced, artistic and conveniently arranged, and the fact that they are constructed under the direct personal supervision of J. D. Mayfield insures to the home owner a first class job.

The name MAYFIELD on a home gives it a value that is worth dollars to you.

Of Vital Importance To Every Home Owner

Modern homes are first, last and all the time equipped with the last word in kitchen appliance for cooking the family meals.

The MODERN GAS RANGE has stood the test for many years and has never failed to meet the prompt demands made for quick, instant service.

With a MODERN GAS RANGE you have no waiting for a proper heat to cook with; you can boil, fry, broil and bake at one and the same time.

The cost of operating a MODERN GAS RANGE is less than any other known method of preparing the family victuals.

GAS ONCE TRIED—NEVER DENIED.

Make Housekeeping Easy

In this age of time, economy and convenience, you cannot afford to get along with the inadequate old coal system of heating water, when a

GAS WATER HEATER

can be had for a small outlay and can be operated at a low cost for fuel. It will give you plenty of hot water and will add immeasurably to your comfort and convenience.

Come and see our line of gas water heaters.
